

Integrated Service Plan Overview

One accountable team. One contract.
One schedule of works.

A complete Helix service plan covers fire, security, emergency and compliance under one coordinated delivery model. We align systems, schedules and standards to reduce risk, simplify management and keep your buildings safe and compliant.

**One Contract, One Team**
Full fire, security, emergency and compliance services under one roof.

**One Schedule of Works**
Coordinated maintenance and testing planned to minimise disruption.

**Lower Risk, Better Value**
Reduced duplication, greater visibility and long-term cost certainty.

What's Included

Fire Systems

Design, installation and maintenance of fire alarm systems, extinguishers, AOV smoke ventilation and signage.

Security Systems

CCTV, access control, intruder alarms, intercom and gate automation systems.

Emergency Systems

Emergency lighting, voice communication, nurse call and escape route signage.

Compliance Support

Certification, safety inspections, regulatory compliance services and PAT testing.

Planned Maintenance Scheduling

Integrated testing and servicing schedules across all systems with minimal disruption.

Single Point of Contact

One dedicated account manager coordinating your plan, team and reporting.

Best For

Portfolios

Why Helix

- ✓ Contractor consolidation reduces complexity and cost
- ✓ Easier oversight with one plan and one schedule
- ✓ Clearer records, reporting and compliance assurance
- ✓ Joined up support from a single accountable team

How It Works

1. Survey

We assess your buildings and systems to understand your needs and risks.

2. Audit

We review existing systems, maintain records and identify gaps and opportunities.

3. Consolidate

We bring services together under one plan, one team and one contract.

4. Maintain

We deliver coordinated maintenance and testing to agreed standards.

5. Report

You receive clear reporting, alerts and compliance evidence year-round.

Risk Managed

Integrated systems kept compliant and operating to the highest standards.

Time Saved

Fewer contractors, less admin and no duplicated site visits.

Value Delivered

Streamlined service delivery that protects budgets.
